

# FormStream

e-form app for digitising paper forms in the NHS

**Populate. Process. Upload.**

voice  
TECHNOLOGIES

## Features

- ▶ FormStream is a web-based electronic form (e-form) app you can use via web browsers on devices running Windows operating systems
- ▶ Enter, save, process and upload your data in one place using bespoke e-forms
- ▶ Integrates with national IT systems (see overleaf)
- ▶ e-forms are auto-populated from demographic information using data from the patient admin system
- ▶ Save draft e-forms and pick them up again later
- ▶ e-forms can be created or updated anywhere using a tablet or mobile, synchronised on return to the clinic, and uploaded to the Electronic Patient Record (EPR)
- ▶ Data in your e-forms is fully encrypted.

## Benefits

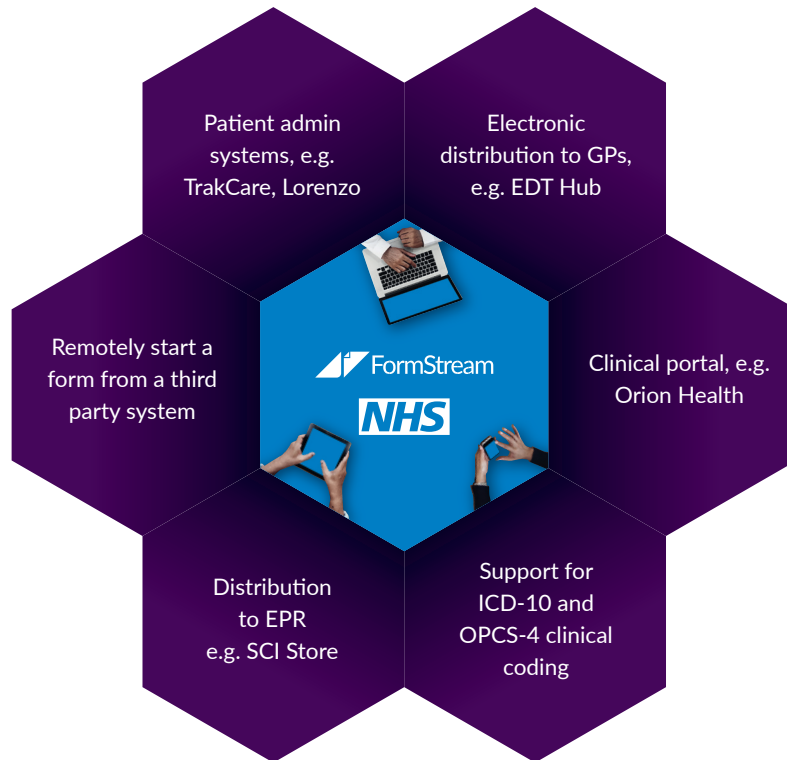

- ▶ No client install required
- ▶ Data security guaranteed
- ▶ Patient information up-to-date and shared instantly
- ▶ No need for hard copies saving postal and print costs
- ▶ Patient data readily accessible for analysis and reporting
- ▶ Authorised users can access colleagues' completed forms post-verification
- ▶ Documents shared across service boundaries to support patient care.

FormStream e-forms:  
custom-built for your specific task.

 MDT Process Complete  
 Clinical Trial Eligibility

**Pre-op assessment:** custom built e-form detailing patient pre-op assessment. Includes summary form output detailing important highlights of the completed form in the patient record.

## Fulfilling NHS national requirements

- ▶ File Note: provision of outcomes relating to Mental Health using ICD10 clinical coding
- ▶ CHAD: assisting in the collection of community based health data and activity as NHS Scotland moves towards integrated health and social care
- ▶ eMCCD: supporting the national electronic Medical Certificate for Cause of Death (eMCCD) process with a unique SCI-Gateway assigned serial number.

## Operation notes

- ▶ Search ICD10 or OPCS4 codes or descriptions and assign them directly inside the form – the full diagnosis or operation type is then displayed
- ▶ MDT (Multi-Disciplinary Teams): removing dictation and transcription waiting times, the meeting document can be completed in advance and completed during the meeting.
