

WinVoice

Document workflow apps for healthcare professionals

Create. Verify. Distribute.

VOICE TECHNOLOGIES

WinVoiceWeb

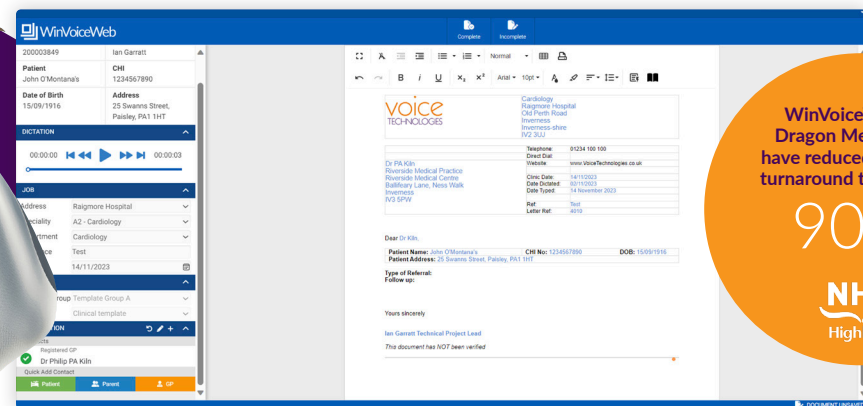

Web-based app for document creation and distribution

Features

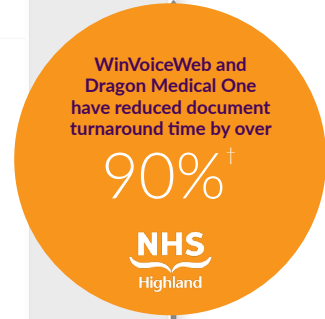

- ▶ Web-based, supported in Edge, Chrome, iOS
- ▶ Accessible remotely via mobile devices
- ▶ Digital dictation and speech recognition
- ▶ Compatible with Nuance's Dragon Medical One speech recognition system
- ▶ Supports industry standard dictation devices, headsets and foot controls
- ▶ Built-in text editor provides a fully integrated experience
- ▶ Built-in medical dictionary and auto-text capabilities
- ▶ All user-specific document data held within profiles, eliminating the re-keying of data for each document
- ▶ Can be launched in patient context from within third-party systems such as Clinical Portal
- ▶ Fully integrates with all common PAS, EPR and distribution systems to populate and distribute documents automatically.

Benefits

- ▶ Creates, verifies and shares clinical documentation faster, saving time and money, and improving patient care
- ▶ Populates patient and clinical information automatically, reducing errors and speeding up creation
- ▶ Supports clinic lists to speed up workflow against specific patient related events
- ▶ Removes old paper-based workflows to save time and money
- ▶ Allows remote access for users to create, verify and share documentation from where they work
- ▶ Standard integration processes with downstream systems removes data silos, improves patient care and allows clinical staff to make more informed decisions.

WinVoiceWeb document editing: using the built-in editor, documents can be easily edited before distribution.

WinVoicePro

The desktop version of WinVoice, developed with the NHS

Features

- ▶ WinVoicePro is a desktop app installed on each user PC
- ▶ Uses a desktop version of Microsoft Word as its text editor
- ▶ Fully integrates with all common PAS, EPR and distribution systems to populate and distribute documents automatically
- ▶ Takes digital dictation recordings to allow immediate and accurate clinical transcription
- ▶ Fully compatible with Nuance's Dragon Medical One speech recognition system
- ▶ Document and patient data is secure through use of industry standard 256-bit AES encryption
- ▶ Always up-to-date with latest national reference files for GPs, Dentists and Optometrists.

Benefits

- ▶ Fills the costly void between digital dictation and distribution
- ▶ Eliminates the time, cost and potential errors involved in re-keying data
- ▶ Accelerates document turnaround times
- ▶ Reduces resource, postage and printing costs.

WinVoicePro document management: documents can be routed, printed or flagged as necessary. Documents requiring verification are easily accessible from the home screen of WinVoicePro.
